

Principle ● CiC-System

1. Inner bag and can are firmly connected to each other in the upper area.
2. The cavity between the bag and can base is used for holding the pressure medium.
3. During use, the inner bag is completely compressed. An emptying rate of up to 95% of the filled substance is possible.
4. The pressure medium is filled either via a hole in the base or by means of the sealing plug which is already inserted.

CAN IN ● CAN

SCAN ME
N U S S B A U M ● We Can

The Can-in-Can is a hightech development from Nussbaum. With its aluminium inner bag, it ensures the absolute separation of the filling and the propellant, whilst providing the most effective diffusion barrier of all comparable systems. It is particularly suitable for viscous products.

The inner pouch contains the product and separates the commodity from the propellant. This two-chamber pack is sealed at a one-inch opening to fit all common valves and actuator systems. Standard propellants such as propane and butane are compatible with this aerosol can. A rubber plug at its bottom guarantees an air tight package.

Raw Material

High-quality aluminium

Bar pressure

Maximum bar pressure of 18 bar

Markets

Personal Care, Pharmacy, Technic, Food

Internal lacquer inner bag

Standard epoxy phenol, other coatings on request; compatibility tests recommended

Outer lacquers and printing outer can

White or colourless basecoat; up to 6-colour print; glossy, semi-matt or matt over lacquer

Features

functional, light, unbreakable, robust, economical, safe to use, lightproof, comfortable application, recyclable, sustainable, stainless

Aluminium Facts

energy-efficient and resource-conserving, 100% and indefinitely recyclable without loss of its material properties, availability unlimited, lighter than steel & much lighter than glass

Diameter	Dimension	Filling quantities		Spherical shoulder 1" opening (25.4 mm)
		Pouch volume	Brimful outer can	
31.5 mm	31.5 x 110 mm	50 ml	89 ml	•
35 mm	35 x 120 mm	76 ml	100 ml	•
	35 x 140 mm	91 ml	117 ml	•
40 mm	35 x 165 mm	110 ml	140 ml	•
	40 x 140 mm	108 ml	158 ml	•
50 mm	50 x 130 mm	156 ml	220 ml	•
	50 x 190 mm	210 ml	332 ml	•
	50 x 190 mm	215 ml	332 ml	•
	50 x 190 mm	228 ml	332 ml	•
	50 x 201 mm	290 ml	353 ml	•

Product options for the Can-in-Can:

- Personal Care:** Hair Colouring, Facial and Body Care
- Pharmacy:** Wound and Skin Care, Eye Wash Spray, Ear, Nose and Throat Sprays
- Technic:** Silicones, Pastes, Greases
- Food:** Mustard, Tomato-Purée, Sauces, Dressings
